

# CHIRAG AWASTHI

FRONTEND DEVELOPER

## CONTACT

- +91 6392568165
- developerchirag9@gmail.com
- Farrukhabad, Uttar Pradesh
- <https://chiragawasthi.github.io/Portfolio/>

## SKILLS

- React
- Redux
- JavaScript
- TypeScript
- Unit Testing (Jest)
- CSS
- HTML
- Git
- C++
- MUI

## EDUCATION

2018 - 2022  
GL BAJAJ ( AKTU UNIVERSITY )

- B.Tech in Computer Science

2016 - 2018

MANAS STHALI ( CBSE )

- 12th with PCM
- Percentage: 83.6%

## LANGUAGES

- English (Fluent)
- Hindi (Fluent)

## PROFILE

Passionate frontend developer with expertise in building responsive, scalable web applications using React, Redux, and modern JavaScript. Proficient in creating intuitive user interfaces, optimizing performance, and collaborating with cross-functional teams to deliver seamless user experiences.

## WORK EXPERIENCE

- CAPGEMINI** ( Software Developer - Associate A5 )  
2022 - PRESENT

### PROJECTS

#### INTELEX

- Developed and maintained robust UI components for web applications using React, Redux, and TypeScript, ensuring clean, modular, and reusable code.
- Optimized application performance, leading to a 30% improvement in load time by refining component rendering, reducing unnecessary re-renders, and employing best practices such as code-splitting and lazy loading.
- Collaborated with cross-functional teams, including backend developers and designers, to enhance user experience, resulting in increased user engagement and smoother interface interactions.
- Integrated API endpoints using Axios to handle asynchronous requests efficiently, ensuring seamless data flow and real-time updates across the application.
- Used Jest to write Unit test cases for the components.

#### HDFC ERGO

- Developed reusable MUI components for more customizability and personalized user experience.
- Collaborated with clients to gather detailed requirements, ensuring a deep understanding of user interactions and business logic, leading to the development of a robust and efficient application.
- Integrated APIs using Axios for efficient data handling and real-time updates.
- Utilized Jira for project management and Bitbucket for version control and code reviews.
- Implemented unit tests with Jest to ensure component reliability.
